SUMMARY

Full Stack Developer with hands-on experience building real-world web applications using React.js, Next.js, Node.js, Golang, and Laravel. Proficient in REST API development, JWT Authentication, and third-party integrations including AI APIs and payment gateways. Experienced in Agile development workflows and collaborative Git-based team environments. Passionate about writing clean, scalable code and continuously expanding technical skills.

TECHNICAL SKILLS

- **Programming Languages** : JavaScript, TypeScript, Go, PHP
- **Frontend** : React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design
- **Backend** : Node.js, Express.js, Golang (Gin/Echo), Laravel, REST API, JWT Authentication
- **Database** : MySQL, PostgreSQL, Supabase, MongoDB
- **API & Integration** : REST API, OpenAI API, Midtrans Payment Gateway, Socket.io
- **Tools / Others** : Git, GitHub, Git Workflow, Agile Development, Postman, Vercel, Deployment

WORK EXPERIENCE

PT Dumbways Indonesia Teknologi *South Tangerang, Indonesia, April - June 2026*

Full Stack Developer Intern

- Developed and deployed 5 full-stack web applications including an AI-powered career coaching platform (CoachAI), e-commerce platform (QuickShop), social media app (Circle), vehicle rental platform (RideNest), and URL shortener (Pendek.in).
- Implemented JWT Authentication, REST API development, and third-party API integrations including OpenAI API and Midtrans payment gateway across multiple projects.
- Built responsive, mobile-friendly UIs using React.js, Next.js, and Tailwind CSS with real-time features powered by Socket.io.
- Collaborated with team members using Git workflow in an Agile development environment, including code reviews and sprint-based task management.

PROJECTS

AI Tool (CoachAI)

An AI-powered career coaching platform that analyzes your CV, identifies skill gaps, recommends learning paths, and runs mock interview sessions with real-time feedback.

- **Tech** : Next.js, TypeScript, OpenAI API, Tailwind CSS
- **Key Achievement** : Implemented OpenAI API integration for CV analysis and real-time mock interview feedback.

Deploy : <https://coach-ai-orpin.vercel.app/>

Repo : <https://github.com/Ryoota95/coachAI>

E-Commerce App (QuickShop)

A full-featured e-commerce platform with product catalog, shopping cart, checkout, and Midtrans payment integration. Includes a complete admin dashboard for product and order management.

- **Tech** : Next.js, TypeScript, Supabase, Midtrans, REST API
- **Key Achievement** : Integrated Midtrans payment gateway and built a complete admin dashboard with role-based access control.

Deploy : <https://quick-shop1.vercel.app/>

Repo : <https://github.com/Ryooto95/QuickShop>

Social Media App (Circle) — Solo Project

A social media platform inspired by Threads with real-time feed, follow/unfollow system, likes, nested replies, image uploads, and Socket.io for live updates.

- **Tech** : React.js, Node.js, Express.js, PostgreSQL, JWT Auth, Socket.io, Tailwind CSS
- **Key Achievement** : Built real-time social media feed using Socket.io and implemented JWT-based multi-role authentication.

Deploy : <https://my-app-eight-sepia-69.vercel.app>

Repo : <https://github.com/Ryooto95/MyApp>

Platform (RideNest) — Team Project (Backend)

A collaborative vehicle rental platform built with a team of 2, connecting users with vehicle providers. Features booking management, vehicle listings, and multi-role authentication.

- **Tech** : Next.js, TypeScript, Supabase, Express.js, Tailwind CSS
- **Role** : Responsible for backend development including REST API design, JWT Authentication, database schema, and booking logic.

Deploy : <https://ridenest-frontend.vercel.app/>

Repo : <https://github.com/GirindraSW/RideNestb>

Platform (Pendek.in) — Solo Project

A platform for shortening links and generating QR codes from created URLs, built with a Golang backend and Next.js frontend.

- **Tech** : Next.js, TypeScript, Golang, Tailwind CSS
- **Key Achievement** : Built a full-stack URL shortener with QR code generation using Golang REST API and Next.js frontend.

Deploy : <https://additional-nu.vercel.app/>

Repo : <https://github.com/Ryooto95/urlshort>

FORMAL EDUCATION

SMA Neg 1 DAMSEL *Toli-Toli, Indonesia, 2021 – 2024*
Science (MIPA)

NON FORMAL EDUCATION

PT Dumbways Indonesia Teknologi *South Tangerang, Indonesia, Jan - March 2026*

Full Stack Developer Bootcamp

- Studied full-stack web development covering frontend frameworks, backend architecture, REST API design, and database management.
- Gained practical experience in JWT Authentication, API Integration, and Responsive Design through project-based learning.
- Practiced Agile development workflow and collaborative coding using Git in a team environment.
